Frequently Asked Questions

What types of businesses qualify?

Although we like to help all types of businesses, currently, we focus on retail and wellness startups. We don't allow any illegal activities, gambling or multi-level marketing.

What are the eligibility requirements?

New or existing businesses must be willing to physically locate within one of our two incubation spaces.

How much does it cost?

Depending on your square footage needs, lease pricing and utilities will be lower than market rent rates.

Are there any perks of incubation?

Shared space and resources are the most common perks of a business incubator. Collectively, your business and the others are able to receive lower rent, utilities and other hidden costs that you would not normally get a discount on.

How can an incubator help my startup?

We can help companies connect with investors, secure additional funding and provide a large network to assist with your specific industry needs.

Is there a time limit on how long I can stay?

When a startup business hits a certain point in their growth, they will end up needing to find a new space. Generally, we provide incubation up to 4 years.
